

## **Sabla Summer Arabic Language Immersion Courses**

### **Course Descriptions**

#### **Advanced Beginners Level**

In this course, students will identify basic vocabularies when used in a spoken or written excerpt. Students will be able to listen to a short spoken passage, then convey the information in tables or a descriptive short essay form. They will also master using greetings and excusing expressions. They will be able to answer simple questions and present simple data. They will develop their handwriting skills through composing a number of connected sentences about pictures and routines.

#### **Low Intermediate Level**

In this course, students will be able to read a passage (3–5 paragraphs), identify the main idea and search for specific words. Students will be able to understand orders related to facts and personal data. They will also be able to describe simplified activities and a number of sequential events. Students will write short descriptions of an object or a familiar scene. They will improve their handwriting and drawing of letters correctly and clearly.

#### **High Intermediate Level**

In this course, students will be able to read passages (5–10 paragraphs), then set down the main ideas, search for specific words and present the main idea. They will also be able to listen to a short passage and convey the information by presenting it in a different style. Students will also participate in a group to solve less complicated problems, which requires connecting written and spoken language. They will be able to differentiate between facts and opinions in a conversation.

#### **Advanced Level**

In this course, students will be able to understand detailed points and concepts for an extended passage. Students will follow a group of extended directions and differentiate between facts and opinions. As well, students will orally present a variety of familiar and factual topics. They will engage in group activities to solve a number of problems that require both inductive and deductive reasoning. Students will also start to form questions about abstract topics and answering questions with limitations. Students will be trained to use connectors and use proper punctuation marks when writing a short essay. They will develop their writing skills and strategies, dividing their essays into paragraphs to present the main information and supporting ideas.
